---

/60

## Design + Documentation

---

Documentation missing or too thin

Code duplication

Too much logic in presentation layer

---

Method & class sizes too large

data access code not separated

---

/25

## Visual Design + Usability

---

Used themes + common styles

Attractive

---

Easy to use

Bonus for extra effort on design and user interface

---

/15

## Bonus

---

Theme change on Master Page

Change sort order on book listing form

---
